

Craven Nursing Home

Welcome

Craven Nursing home is located in the picturesque market town of Skipton.

The Home

Our home is set on its own grounds with wonderful views over the canal, the countryside and beyond.

The health, well-being and happiness of our residents is our number one priority.

Craven Nursing Home

Keighley Road | Skipton | BD23 2TA

Kindness | Dignity | Compassion

At Craven Nursing Home we aim to deliver compassionate, exceptional care in a safe friendly environment. We want our residents to relax, socialise and live as independently as possible whilst receiving the very best person-centred care.

We offer permanent Nursing and Dementia care as well as respite options for residents in a modern, spacious environment with a reputation for outstanding care.

Our Home

Craven Nursing Home is made up of three communities - Heron, Swan and Mallard. Across these communities, our 65 rooms have en-suite facilities and are light and spacious.

They are stylishly decorated throughout and we encourage our residents to personalise their rooms to make them as homely as possible. Our lounges and day rooms are large, comfortable spaces with social interaction in mind.

Dining

All our meals are freshly prepared in-house allowing our chefs to create delicious, nutritionally balanced meals.

We adopt a 'food first' approach to nutrition, working with individuals to cater for special requirements and cultural preferences.

Nursing Care

We have 41 bedrooms that are dedicated to nursing care, and each resident has their own personalised care plan to help ensure their independence and choices are maximised.

Our Registered Nurses are on duty 24 hours a day, supported by highly skilled care staff to give the best care, tailored to each resident's ever-changing needs. We believe that real care cannot be delivered until we completely understand the person we are caring for.

We offer a variety of care services tailored to your individual needs:

- General nursing care
- Care of complex long-term conditions
- Palliative care
- Dementia care
- Short break/respice care

Our dedicated, well-trained, professional team offer high levels of service and exceptional standards of care to all residents. Our registered nurses and manager work closely with GPs and other relevant health professionals to ensure that all your health needs are managed to meet your expectations. Getting to know you and your wishes is very important to us and we will always include you and your loved ones in planning your care here.

“

We received a lovely welcome on a grim November day and were shown to Mum's room. We had booked two weeks respice care. It was indeed respice, living up to the name. Thank you to all the hard-working staff – carers, cleaners, nursing, laundry staff, activities organiser etc. Mum loved one-to-one and singing. I loved being able to visit whenever I wanted. Craven Nursing Home almost became my home for two weeks. Thanks again!

Dementia Care

We are dedicated to delivering the highest possible care for people living with Dementia. We have created an environment where we use recollections, reminiscence and sensory-based activities to gain insight into a resident's life stories. We take the time to get to know our residents as individuals, this ensures we deliver the very best person-centred care.

Our 23-bed specialist dementia care community is designed to provide a large airy open space with smaller cosy areas for our residents to use. Memory boxes on our corridors are personalised to help residents identify their room through items that trigger fond memories.

Our specialist dementia community is staffed by registered mental health nurses with excellent knowledge of dementia. All care staff receive enhanced training on dementia and how to support individuals to live well despite living with dementia. Activities are provided that are both meaningful and cognitively stimulating for our residents. The team works with residents and their families to identify their preferences to fulfil individual social needs.

We ensure that the environment we offer changes with the needs of our residents which is why we have recently provided a sensory garden, specifically designed with those living with dementia in mind.

“

My mother spent the last 7 months of her life at Craven. She died recently of dementia. The loving care she received from the staff was amazing, well beyond what I'd have expected given her condition and associated behaviour and that includes all staff, managers, nurses, care staff and cleaners. My father, also a resident at the Home, was supported and equally lovingly cared for, meeting his specific needs as he spent so much of the day with his wife and is now being very well looked after through a difficult time for him. I couldn't recommend more highly.

Daily Life

At Craven Nursing Home we want you to be able to enjoy the things that are important to you. Our experienced Activities Team actively encourage and supports residents to pursue their own interests and hobbies.

A varied calendar of activities ranging from musical entertainment, arts and crafts, table games and coffee mornings are provided along with seasonal events and entertainment. Organised outings on with our minibus & driver are planned regularly, with popular events including our boat trip on the Leeds - Liverpool canal and a tour of the Christmas lights in Skipton and Ilkley.

About Spellman Care

Spellman Care is a family-run business, which has been operating nursing and residential homes in the local area for over 30 years. There are four homes within the group. All four homes are proud to be rated as 'Good' by the Care Quality Commission (CQC). Our other homes can be seen below.

“

I would like to thank all the staff at Craven Nursing Home for the excellent way that they are caring for my dad who has complex needs due to his dementia. He has been not been able to walk or stand since November 2022 and has to be hoisted and now moved using a wheelchair and they are marvellous with him. He is kept very clean and they are all very kind to him.

“

Craven Nursing Home cared for my father, who had Alzheimer's disease, for about eighteen months. We were always impressed by the dedication of the team in Heron and as the disease progressed they adapted to his needs appropriately, keeping him comfortable and safe as he became frailer. He developed good relationships with many of the staff. They were very supportive to us as a family, especially in Dad's final few days and we will always be grateful to them.
